

TWENTY-SECOND YEAR No. 1.

GLEICHEN, ALBERTA, WEDNESDAY, MARCH 28, 1928

SUBSCRIPTION \$2.00 PER YEAR

# Town & District

And Dave Yule is to loose his happy home.

Read J. O. Bugbee's Auction sale ad in this issue.

Field mice appear more plentiful than usual this year and many can be seen running about town.

Alden Smith was in from Garden Springs Monday and met a number of his old Gleichen friends.

Miles Moos is recovering nicely from operations performed on him for appendicitis and rupture at Calgary.

The Call is pondering over printing a charity page for business men who say they can't afford to advertise—we could fill it easily.

From the number of dances held this winter we may expect to learn of some world records broken by our young folks.

Mrs. Harper left Monday to visit relatives in Saskatchewan, after spending several months in Gleichen with her daughter Mrs. Baker.

Monday the older Indians on the Blackfoot reserve received a good payment and Gleichen had the appearance of a holiday—bright colors predominating.

Mr. B. Scott was in town Monday from Blind Creek and met a number of old friends. It is not often he comes to Gleichen now owing to the new south towns being nearer to him.

The Town Public Works Committee became very popular Friday and Saturday last when they had the streets graded—it certainly was a grand improvement.

Gladie (on a dark night): "Ooooh! what if some big bear attacked us!" Tom Glendinning: "Never mind, I'll run for help."—Lips.

Mr. Schmidt has purchased the old Boree main building east of the Call office and is tearing it down to rebuild south of the Geo. Moos's beer warehouse. He will move his gasoline station into it when completed.

Mr. and Mrs. Roy Knodford returned last week from their honeymoon trip to Vancouver and other Western points. Roy overlooked sending the Call a report of the great event, but he is forgiven being his first offense.

Good Friday evening at 8 p.m. the Passion Play Oberammergau lecture by Rev. Mr. Corcoran will be illustrated with fifty lantern slides in the United Church and will prove very interesting and entertaining. The admission is only 25c. for adults and 10c. for children.

An old-timer now in the southern states writes wanting to know if Rev. Mr. Corcoran will be illustrating with fifty lantern slides in the United Church and will prove very interesting and entertaining. The admission is only 25c. for adults and 10c. for children.

The Peace River country will observe a lot of good young farmers from the Gleichen district in the spring already quite a number have been north looking over this new country and are evidently greatly pleased with its prospects in the future. Many will take up homesteads, while others are looking for other opportunities.

We may not see the last of the young men no complaint can be made as this district is now pretty well filled up with prospective homesteaders of whom are willing to offer their land for sale.

## Chain Whist Drive

The Call regrets that the score in Women's Inaugural Chain Whist Contest Drive was inadvisably crowded out last issue. However, below will be found both last and this week's scores, the first column representing last week's and the second this week's:

| Ladies           |     |     |
|------------------|-----|-----|
| Mrs. Vark        | 428 | 574 |
| Mrs. Sather      | 423 | 562 |
| Mrs. Cook        | 416 | 567 |
| Mrs. W. W. Brown | 402 | 530 |
| Mrs. Downey      | 402 | 528 |
| Mrs. McCullum    | 391 | 520 |
| Mrs. Baker       | 386 | 524 |
| Mrs. Harper      | 384 | 501 |
| Mrs. T. W. Bates | 379 | 498 |
| Mrs. Fisher      | 370 | 497 |
| Mrs. Tomlinson   | 368 | 492 |
| Mrs. Hamberg     | 368 | 494 |
| Mrs. Michael     | 360 | 496 |
| Mrs. Newa        | 360 | 493 |
| Mrs. Taylor      | 354 | 491 |
| Mrs. Geo. Evans  | 349 | 482 |
| Mrs. E. Wood     | 345 | 481 |
| Mrs. Cuthbert    | 331 | 478 |
| Mrs. Marshall    | 326 | 479 |
| Mrs. Newa        | 320 | 479 |
| Mrs. W. H. James | 319 | 478 |
| Mrs. J. Young    | 315 | 478 |
| Mrs. Marshall    | 310 | 478 |
| Mrs. Perkins     | 309 | 479 |

| Gentlemen         |     |     |
|-------------------|-----|-----|
| Mr. P. D. Dyer    | 419 | 562 |
| Mr. W. P. Evans   | 413 | 561 |
| Mr. V. R. Hamberg | 401 | 559 |
| A. P. Henson      | 395 | 516 |
| W. T. Bates, Jr.  | 389 | 507 |
| T. H. Beach       | 388 | 505 |
| W. T. Fisher      | 380 | 516 |
| R. Tomlinson      | 378 | 492 |
| M. R. Tomlinson   | 375 | 494 |
| H. Sanford        | 370 | 493 |
| H. W. Harrison    | 374 | 492 |
| N. T. Farwell     | 353 | 481 |
| H. W. Marcellus   | 352 | 481 |
| R. W. Brown       | 352 | 481 |
| M. E. Miles       | 351 | 481 |

The winners of the ladies' first prize a week ago was Mrs. Geo. W. Evans and Mrs. Tomlinson received the consolation. Mr. Henson secured the gentlemen's first prize and Mr. Marshall the consolation. Mrs. Baker won the guessing contest.

Last Monday Mrs. Jas. Young won the ladies' prize for the best score for the evening and Miss Thomas the consolation. Mr. Sanford carried off an estimated value of \$800.00, while Mr. B. Tomlinson the consolation.

Remember there are good prizes to be secured for each Monday night, as well as the two big prizes for the full drive. The games start sharp at 6:30 each night and all are welcome. Luncheon is also served after each game.

## WORK AND PLAY

Farm people work to many hours, according to Dr. S. S. Harris, one of the University of British Columbia physicians, who declares that an eight-hour day is needed on the farm as well as in the city.

He thinks that the farmer gets tired to the habit of working long hours and consequently does not get enough as effective efforts as he would if he limited his daily period of labor.

"Farmers ought to be encouraged to work strenuously eight hours a day and then take more rest and recreation, instead of working feebly fifteen hours a day as many of them do."

While most farmers would resent being told that they work "feebly," they would not do so, when they know he is going to stick on the job for fifteen hours in a day he will not get tired as energetically as he would for a shorter period.

Vigorous work relieved by a liberal amount of rest and recreation seems to be a good formula for health and efficiency.

As we understand it, a h-m-m is a man in a high degree of male masculinity.

## PROVINCIAL NEWS

### LEGISLATURE PROLOGUES

#### AFTER BUYS SESSION

General satisfaction is expressed by Premier Brownlee and the members of the cabinet with the work which has been done during the session of the Legislature which prorogued on Wednesday, March 21, having sat from February 2. A total of 77 bills were passed by the Legislature during the session, eight of which were private bills and 71 public bills. It is considered likely that a short session of the house may be called during the summer to consider a number of matters. The premier expects to leave during the coming week for Ottawa. The satisfactory disposition of the northern railway lines and the return of the natural resources to the province will be a matter of which the premier expects his attention during his eastern trip.

### ALBERTA'S MINERAL

#### PRODUCTION GROWING

19 Alberta stands fourth among the provinces of the Dominion in the value of its mineral production, according to the recently issued preliminary report of the mining branch of the Dominion Bureau of Statistics for 1927. Ontario leads with a production valued at \$89,100,000, or 36.44 per cent of the Dominion total. British Columbia stands second, with an output valued at \$69,184,124, representing 28.41 per cent. Of the aggregate for the Dominion, 1927, Alberta with an output valued at \$24,182,821 held third place and contributed 12.08 per cent of the total, closely followed by Alberta with a production of \$20,375,040, constituting 12.02 per cent of the total.

Alberta's greatest contribution is in the field of non-metallic fuels, including 6,029,366 tons of coal valued at \$21,250,138, and 321,154 barrels of petroleum with a value of \$1,897,007, and 12,533,801 cubic feet of natural gas valued at \$5,899,680. Metallic mineral products include 42 fine ounces of gold valued at \$10,821 and 100 tons of salt with a value of \$100. Fire-clay, brick, cement and other clay products manufactured during the year have an estimated value of \$800,250, while timber, lime, stone, sand and gravel contribute \$1,735,061 to the grand total of \$67,375,040.

### TALC DEPOSITS TO

#### BE DEVELOPED

Development of the blue and white talc deposits in the vicinity of Banff is planned during the coming session announces H. R. Lumsden, assistant director of the department of mines, in the Canadian Pacific Railway. Lumsden states that a road twenty miles in length will be built to the deposits and the deposits will be mined and sold as talc. The blue talc which is very rare and valuable is used in electric insulators and gas burners while the white sort is extensively used in the preparation of cosmetics.

Construction work on the C.P.R. Cattle-Killing Station at Lakehurst, extension to complete the 64 miles of line commenced last year will be resumed this spring. The work, according to L. A. Col. J. R. Reid, superintendent of construction, who is in Edmonton recently, is a Grandstand from where he will supervise the construction of the station in the direction of Whitford Lake.

Hugh Bates received his first shipment of new Chevrolet last week and is already busy turning them over. The new cars are very fast and some and Hugh is looking forward to a good business this season in the a secondary life, with demoralizing the Gleichen district. He has been appointed local agent for Peterson & Sealed, dealers.

## Agent Gooderham

### Addresses Calgary

#### W. Canadian Club

(From Calgary Herald)

Debunking his tale with interesting incident and anecdote gleaned from his experience as Indian agent at Gleichen, Mr. G. H. Gooderham traced for the benefit of the Women's Canadian Club Tuesday evening the romantic history of the Blackfoot Indian, a representative company of members, with their husbands, gathering in the ballroom seats of the Hotel Palliser, Mrs. H. G. B. Glass, the president, introduced the speaker, and a group of songs, delightfully sung by Mrs. James Rodell and Miss Vera Clouston, prefaced the address of the evening. In speaking of "The Blackfoot I Know Him" Mr. Gooderham touched on the many adventures which he has had, and the quiet, peace-loving nature which we know today. Chief of these, he said, was the advent of the white man, who brought in his train diseases which ravaged the tribes, and the advent of the horse, which made the life of the Indian more comfortable. Then came the intervention of "The Great White Mother" and the Treaty of 1877 with the Great Chief Crowfoot, on behalf of his people, and finally, the government agent. His business it is to protect the Indian against exploitation, and to help him to develop his own powers. He may be a "sharp" and a "self-supporting subject." The agent also acts as magistrate on the reserve, and settles, to the best of his ability, such family quarrels and such as may arise, as well as directing the activities of the reserve.

### Are Not Papers

At the present time there are approximately 700 of the Blackfoot tribe on the Gleichen reserve, of which some 150 are successful ranchmen, and the rest are in various quantities of grain, and owning many head of horses and cattle. The schools are carrying on excellent work among the younger generation, a hospital which has recently been erected by the Indian Affairs department, and the Blackfoot medicine men, and the Blackfoot dwell in substantial houses, many of which are lighted by electricity. One saw has gone so far as to install an electric washing-machine, and many of the chiefs and heads of the tribe own their own motor cars. In this connection Mr. Gooderham said that he had seen a Blackfoot consider the present-day Indian a pauper, or to treat him as such. The Blackfoot, he stated, are very hardy, cattle, grow considerable wheat, and in addition, produce a certain amount of coal in the reserve situation on the reserve. The tribe is a wealthy one, but it has been found that the Blackfoot have spent for them indirectly.

### In Transit Stage

Now a peaceful citizen, the Blackfoot, he stated, in former days, was a war-like individual, who roamed the plains in search of his staple food, the buffalo. In 1776 the tribes quired their first horses, and for the next hundred years "spinning horses" were the chief and the pursuit. A man's wealth was counted in horses, and the old Indian of today still reckons in horse-flesh. The Indian of the "horse age" is a magnificent specimen of manhood, and in large camps under the stars of the night, he is a good conductor of good health and good morals. Then came civilization, and the Indian became ill, the gradual narrowing down of the Indian's territory, and the disappearance of the buffalo. The new era of the Indian is now a struggle for existence on the Indian of the "horse age" is a magnificent specimen of manhood, and in large camps under the stars of the night, he is a good conductor of good health and good morals. Invited to see Montreal by the hotels and the tourist and convention bureau of the city, 75 members of the Massachusetts Hotel Men's Association spent a week-end recently here and were given a royal reception by their president, Chas. J. Condon, saying, "We came to see New England to Montreal, but you have sold Montreal and Quebec province to us."

During the usually quiet immigration months of December and January the Canadian Colonization Association colonized 76 families who took up land to the extent of 22,794 acres. In 1927 the Canadian Pacific Railway, through its land department and its subsidiary (the C.P.A.), placed 2,068 families on Canadian farms, this including 625 families on C.P.R. lands.

The movement of British youth to Canada promises to be considerably heavier than usual, due to new arrangements made with the British Government, Ontario taking 500 boys, Manitoba 50 and the Maritime Provinces and Saskatchewan each 250. The number, while some hundreds are to be moved by private organizations, is all under the same scheme this summer.

Another body of apertures are finding central and Eastern Canada good places in winter as well as summer. The Appalachian Mountain Club, of Boston, picked the best spots in the winter and sent a week in the Laurentians mainly devoted to skiing, but with sleighing, dog-muzzling and sleighing brought in. It was the first time they had ever visited this district in winter and they are going to repeat it.

Reignation of Colonel Walter Maclean as Chief of the Canadian Pacific Passenger Traffic Manager was announced by the appointment of William Blair, Chief of the Canadian Pacific Railway in Montreal. Mr. Blair, whose appointment is effective March 1, has been in the service of the company at Glasgow as junior clerk in 1905 and came into C.P.R. service in 1907. He will take over the Allan line in 1916.

Beef keeping in Saskatchewan made marked progress in 1927, being an increase of 40 per cent in all the cattle colonies over those of 1926 and an increase of 101 per cent in the 1927 honey crop over that of the previous year. The number of hives increased to 5,200 in the last year, production of honey for the year was 64,042 pounds, and the value of the honey crop was 148,000 pounds, making an average production per colony of 148 pounds.

Alpines are now being used to herd vast numbers of reindeer in the Barren stock farms, according to Ralph Lawson, pioneer of the reindeer industry of Alaska. "It's a new idea and it's not being practiced," says he, "but by alpine pens feasible," said Mr. Lawson. "One head reindeer other-wise has required a week with a cowherd, but now it can be done with reindeer in the northern tundra. It would cost \$50,000,000. It could be done in 100 days. It has started now in a modest way."

Mrs. Ann Kelly, who died in Lewistown, Eng., at the age of 103, was married three times without changing her name, since her husband was named Kelly and her maiden name was the same.

Possibly we might have more great men in future if someone would bring calves for them to be born in.

An economist declares that the copper industry in on a sound basis, and appears to be producing its usual dividends also.

# QUEENSTOWN ECHOES

Taken From The Gleichen Call, 1908

Mr. and Mrs. O. P. Solberg drove through to Claresholm last week where Mrs. Solberg will visit her brother-in-law, O. P. Solberg, for two or three weeks.

W. Durston made a trip to town last week.

Mr. and Mrs. W. H. Markley of Port, Oregon, was down through the district recently by P. E. Robinson and have decided to locate here.

A school meeting was held at F. E. Robertson's residence last week where the residents here elected the following trustees, F. E. Robertson, G. L. Macdonald and C. A. Hall.

T. Southernland is busy these days building a shack on his estate.

Drinking and plowing is still going on in this district.

The Little Old Man made a trip to Calgary last week on business.

T. P. McHugh shipped a bunch of cattle last week from Stanchart.

Mr. and Mrs. F. E. Robertson were visitors to the poultry meeting at Hochen.

Miss Amelia Stumpf has gone on a trip to Graman, where she will spend several weeks with friends.

The last dance named that effective to April, where she will go to work for Mr. Telford.

Frank Robertson has apparently one of the real estate business.

M. Mason has returned from over a mile.

The ground is in fine shape and rolling under way. These will give the bumper crops that will make St. Mary's Valley famous.

E. H. Smallman has been on the dock list, but is recovering.

There was a large attendance from Queenstown at the dance at Munro's Friday evening.

Dinking has been brisk for the past two weeks.

W. Herman is expected home from Calgary Friday, where he has been undergoing an operation.

C. R. Dalton has arrived from Calgary to pass his ranch.

L. Asgard has been breaking the last few days and says everything is O.K.

# ECHOES OF GLEICHEN TWENTY YEARS AGO

Taken From The Gleichen Call, 1908

Joe Clark, Jr., shipped several of his horses from Bassano to the Call, saying they were in good shape and they will return with good prices.

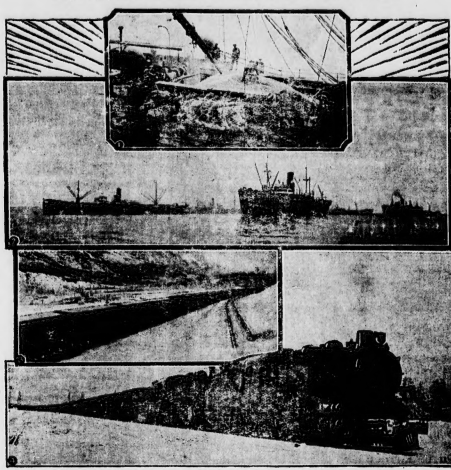

The cemetery committee and the Council succeeded in reaching an amicable settlement at their meeting Monday evening after a lengthy conference, and the Council will handle the cemetery from now on.

It is learned on good authority that the C.P.R. has granted permission for the erection of an elevator and three ware houses on their property.

While riding in from his father's farm, north of town, Wednesday evening of last week, Robert Peterson's horse fell near R. Landell's farm and broke the lady leg in two places, broke the knee and just above the ankle.

Only a truly desperate mouse would seek over under a skirt these days.

# 65,000,000 Bushels of Grain Move West

1. A Canadian Pacific freight train being loaded with grain. 2. Bound for four countries carrying some of Canada's golden crop. 3. Part of a grain train passing through the snow-covered hills of the west. 4. A huge elevator.

Over 65,000,000 bushels of grain will be carried into the port of Vancouver for the twelve months ending March 31 next according to an estimated figure issued from the office of E. D. Colwell, Winnipeg, Man., superintendent of transportation for the western lines of the Canadian Pacific Railway.

These figures establish a record. In fact they show enormous strides since 1922—the first year that the Canadian Pacific Railway handled any quantity of grain in the western coast.

Very few people know that the very extensive and extensive Pacific railway to handle the annual grain crop on western lines runs in fact comparatively speaking, for about two-thirds of the grain the money invested in these facilities.

the United Kingdom: 3,725,945 bushels to the United Kingdom.

The building of the Transcanada yard at Winnipeg, with over 100 miles of track and a capacity of 12,000 cars, one of the most up to date yards on the continent, was necessary to handle the Canadian Pacific grain traffic, and is therefore used for handling revenue traffic only about two-thirds of the grain.

During the time the cars and locomotives are lying idle they are inspected thoroughly by the mechanical department and put into first class shape, so that when the grain commences they are ready for immediate use. This year seventy-five of the company's largest engines were transferred west for the grain haulage.

Winipeg.—The British boy immigration scheme has been adopted by the Manitoba Provincial Government, and about fifty left will be brought here this year for placement in the province.

A. Frederic, Minister of Immigration, announced that the training will be placed at the Manitoba Agricultural College for preliminary training in farm work.

Calgary.—Two commercial air-liners transport project is being developed in Calgary. One calls for the building of a fleet of twelve passenger, freight and mail traffic between Calgary and Edmonton. The other calls for light machines, two or three passengers, for Calgary-Edmonton and mountain flight purposes.

All the way from Camrose, Alta., to Calgary, the road is being built, a distance of approximately 500 miles. The road is being built by the Manitoba Provincial Government, and about fifty left will be brought here this year for placement in the province.

James Campbell, who has been in the business of the C.P.R. since the Dominion of Saint John, where he embarked on the first maritime bound for Glasgow. He is visiting his aunt, who lives in Buxley, Glasgow.

All previous records in connection with the westbound movement of grain to Vancouver over Canadian Pacific Railway line were broken during the first two weeks in January, according to E. D. Colwell, superintendent of transportation, of the line of the company. Deliveries of grain to Vancouver for the first two weeks of the year were made recently to fifteen or twenty per cent in excess of the previous year.

Farms offered for sale last spring were made recently to fifteen or twenty per cent in excess of the previous year.

It is recognition of the fine work by officers of the Canadian Pacific Railway and the Canadian National during the last summer that the second triennial Empire Mining and Metallurgical Congress, presentation of gold and enamel craft links were made recently to fifteen or twenty per cent in excess of the previous year.

James Martier, 17 years old, of Tofino, Prince Rupert 450 pounds. He gains about 10 pounds a year.

Giulio Nardini of London, petitioning for the annulment of his marriage, testified he thought he was only getting engaged.

Norman Canham, 18-month-old child of Modesto, Calif., wandered some miles from his home and was found next morning with a wet cat under his back.

Stacy, president of the C.P.R. and Sir Henry Thornton of the Canadian Bankers' Association.

During a "rat week" in England it is estimated that 8,000,000 of the destructive rodents were killed.

The British Transport Workers Union lays claim to being the strongest labor organization in the world.

### TOWN AND DISTRICT

MacCallum & Smith Motors are offering real auto bargains in their ad.

"Yankee" Plant came up Sunday morning from Brooks to visit his home here.

Johnny Plant has returned from Calgary, where he took a technical course he still enjoys life.

Bert Stitt announced a retiller left for the Peace River Saturday. Asked the name he replied: "Mr. Bronze Gobbler"—next bet?

After several months absence "Scotty" Frazer was a visitor to Gleichen last Thursday. He appeared to be prospering—has his hair cut and a job of painting for the Prince this summer.

L. H. Crundall spent a day in Gleichen last week looking after his farming interests and met a number of his former friends. From appearance he appears to still enjoy life.

Mr. and Mrs. J. C. Hutchinson returned last week from spending the winter in the Eastern States and were glad to get back to Sunny Alberta as Mr. Hutchinson enjoys the weather was raw and cold, with very little snow.

Mr. and Mrs. Frank Daw returned to Gleichen last week from Vancouver where they have been spending the winter. They enjoyed their vacation at the coast, but are pleased to reach home once more.

An Old Times' dance is to be given in the Meadowbrook Community Hall next Friday night—March 30th. Art Bremner's orchestra has been secured and the occasion a good time for one and all is assured.

Mr. Chris. Bartek was down from Calgary several days last week attending to the shipment of her furniture. While here she met many of her old friends and spent a very pleasant time in Gleichen. Few Gleichen ladies accomplished as much for this town and district as did Mrs. Bartek during the many years she resided here, being ever ready to assist in anything she believed to be in the interest of the community and a great worker for the church and Women's Institute and old Relief Corps, as well as being very active in the Red Cross work throughout the Great War. She expects to make home in the Edmonton in the near future.

Vulcan Advocate! The Gleichen Call of last week carried an advertisement of local interest. It was the announcement of the purchase of a general store business in Gleichen by Mr. Howard Macintosh. The purchase was made from Mr. J. C. Malvin and it is a coincidence that when Mr. H. W. Reeves left Vulcan some few years ago to buy a business in Armstrong, B. C., he purchased from the same man. Mr. Macintosh was a resident in Vulcan for a sufficient period to give him place as an old-timer in a new town, and during the span of years which has given this town its growth and success he made his contribution to its activities and was connected with its enterprises. His lodge affiliations were several and he was honored with office in all with which he was connected. He was versatile in the sport, and did his turn for Vulcan in hockey, baseball and football and last year when lacrosse was talked of he was the only man who produced a lacrosse stick. This delicate announcement of his business undertaking makes splendid occasion for friends here and elsewhere to wish him well.

It is a long time since the people of Gleichen had the opportunity of so enjoying a treat as the Georgian Singers and Players gave them last Friday night. There was melody and sweet tones of every note and just enough of comic. The costumes, too, were beautiful in their reminiscence of the days of yore. "Ye Olden Times Village Quartette" brought back the good old songs that too long have been forgotten and yet were new to the latter generations. Also the old negro plantation songs were highly appreciated in towns of this population, still there was sufficient evidence to show these artists were equal to the best in this. In brief this company evidently knows full well how to cater to the demands of the people in these western towns. While the attendance was not anything approaching that merited it is pleasing to learn this company will visit Gleichen again, and it will be surprising if they are not invited to return again and again as other towns of Alberta have done.

The man at the head of all news whether at home or abroad, is the one whose attention you will be attracted.  
Our paper goes on the best class of homes and is read by the head of the family. That accounts for the large circulation of the paper and the use of the Classified Want Ads.

DOMESTIC employment wanted in town and country for young women immigrants who are now coming to Canada from various European countries. Experienced household workers, cooks, etc. Apply to the Secretary Canadian Women's Colonization Board, Calgary, Alberta.

BRITISH FARM WORKERS—employment on farms wanted for British families and single men who are coming to Canada from the Old Country during the Spring and Summer. Farmers' give these immigrants a start in Canada by providing employment and accommodation for a family or a single man! Let us help you solve our problem and bring greater prosperity to the country. Experienced European agriculturists also supplied. Apply Department of Colonization and Development, Canadian Pacific Railway, Calgary.

Many changes are still being made in the Call mailing list. Keep your eye on the label and advise us if you note anything wrong.

A full named Fiedt's will play a short story with the Cubs this season. Oh, Mayor Thompson!

An office building in Germany is built to resemble a steamship. But its speed is said to be much slower.

## MacCallum & Smith Motors

GLEICHEN, ALBERTA

See CALL Label!  
It is said that physicians live longer than the average person. Possibly because they seldom take medicines. By judiciously choosing where to dig fish bait one may get a fair start toward the spring garden at the same time or two.

Forty Week comes in April, about the time some of the presidential timber will be sadly in need of conversation measures.  
We might not mind the income tax payments so much if we could skip the car and radio instalments for a month or two.
